047004 Memory Systems – Paper Review Guidelines

Please refer to the guidelines in slides 97-105 of Lecture 1. A list of questions you should address in your review is presented below.

Your review should not exceed 1 page. Write your full name and ID at the top of the page.

<u>Deadline</u>: Oct 22nd, end of day (23:45).

Summary
1. What is the problem the paper is trying to solve?
2. What are the key ideas of the paper? Key insights?
3. What are the key mechanisms? What is the implementation?
4. What are the key results? Key conclusions?

Strengths (most important ones)
5. Does the paper solve the problem well? Is it well written? …

Weaknesses (most important ones)
6. This is where you should think critically. Every paper/idea has a weakness. This does not mean the paper is necessarily bad. It means there is room for improvement and future research can accomplish this.

Thoughts/Ideas
7. Can you do better? Concisely present your ideas.

Takeaways
8. What you learned/enjoyed/disliked? Why?
